

Do you know where your power comes from?

Do you know if your utility offers a clean energy program?

What would it take to convert your home or business to solar power?

Through a series of film screenings and workshops in Kansas communities, the Climate + Energy Project hopes to get more Kansans thinking and talking about the state's solar energy potential. We hope you'll join us!

Shaping the Future: How Should Kansas Adapt to the Growth of Rooftop Solar?

Join us for a FREE screening of "[Happening: A Clean Energy Revolution](#)" and panel discussion, includes a complimentary brisket dinner.
